

NOTES

- It is proposed that extraction and rehabilitation of the pit will provide a uniform and productive agricultural use compatible with the surrounding land base.
- 2. The licensed area is 33.5 hectares.
- 3. All buildings on site and within 120 metres of the site have been identified.
- 4. Wells located within the licensed lands or within 120 metres of the site are shown on the site plan.
- 5. The approximate water table elevation is 357.53m at Test Pit 12 and 360.47m at Test Pit 13. as interpreted by Black, Shoemaker, Robinson & Donaldson Limited site plan, Project 89-6697, dated March 31, 1992.
- 6. There is no existing fuel storage on site. Scrap location is located as noted on site plan.
- Site contours are at 1 metre intervals as described in Black, Shoemaker, Robinson & Donaldson Limited site plan, Project 89-6697, dated March 31, 1992.
- 3. Spot elevations and contour elevations hereon are referred to Geodetic Datum Benchmark-nail and washer in root of pine tree at S.W. corner of cemetery. Elevation = 364.269 (supplied by Philips Planning and Engineering Ltd.)
