Reporting to the Public Works Water/Wastewater Manager, the minimum qualifications for this position include:

- One year minimum experience in municipal water and wastewater services
- Minimum OIT Water Treatment with the requirement to obtain Class 1 certification within 12 months of hire
- Minimum Class 1 Distribution & supply Certification with the requirement to obtain Class 2 within 12 months of hire
- Minimum Class 1 Wastewater Collection would be considered a definite asset
- Effective verbal and listening communications skills
- Maintain a valid Ontario Class G Drivers' License and Driver's Abstract in good standing
- Demonstrated computer knowledge including proficiency in MS Office and familiarity with a SCADA environment
- A demonstrated work history that highlights teamwork and a positive attitude
- Demonstrated record keeping, time management, organizational skills
- Working knowledge of the applicable legislation within the Safe Drinking Water Act
- Live within 40 minutes of the Municipal System or be willing to move within 12 months of hire
- Ability to work in difficult and dirty environments in all weather conditions
- Available for on-call schedules afterhours and weekend shifts on a rotating basis
- Ability to perform Operator in Charge (OIC) responsibilities on a rotational basis as required
- Agreeable to act as Overall Responsible Operator (ORO) on a rotational basis as required

The ideal candidate would already possess:

- Class 1 Water Treatment Certification 1 and Class 2 Water Distribution & Supply Certification;
- Ministry of Environment Class 2 Wastewater Collection License; and
- The ability to immediately perform OIC/on-call duties on a rotational basis.

Assets:

- Degree/diploma in Environmental/Resources Studies, Science or a related field
- Experience working in a highly regulated environment
- Completion of additional certifications/courses related to water treatment, distribution and wastewater collection
- Experience with or training in the use of SCADA, PLCs or other similar systems
- Laboratory testing experience
- Related Health & Safety training/certification, such as Confined Space Entry, Transportation of Dangerous Goods, WHMIS, First Aid/CPR, SCBA, etc.
- Class DZ Driver's Licence

Other Competencies or Skills:

- Demonstrated knowledge of proper health and safety practices
- Demonstrated knowledge of water and wastewater processes, systems and regulations
- Proven ability to prioritize tasks on a daily basis
- Ability to work effectively as part of a team, communicate and cooperate with others
- Proven ability to recognize issues, analyze data, troubleshoot and solve problems
- Ability to respond to emergencies and follow established procedures
- Must possess basic and applied mathematical skills, mechanical and verbal reasoning, numerical ability and spatial relations
- Basic mechanical and electrical aptitude
- Must possess computer skills including spreadsheets, word processing, work order systems and email

- Must be able to work alone and/or without direct supervision, as well as in a team environment
- Strong attention to detail
- Excellent documentation skills (electronic and written)
- Familiarity with the Drinking Water Quality Management Standard (DWQMS)

Although not required at this time, please note that successful applicants will be required to provide the following documents (but not limited to), as a condition of hire:

- Satisfactory Driver's Abstract
- Satisfactory Police Clearance Certificate
- Proof of original educational qualifications
- Proof of original Ministry of Environment, Conservation Parks (MECP) Water/Wastewater qualifications (ex. proof of passed exams, licenses, etc.)
